Where are we on timing then? Has Shaun called Gina back? Any movement? Ballpark? Hearings in February now?

Lisa

Hi Lisa: It certainly means we have one less complicated topic to explain to the public. By removing their request for injection into the Deadwood, we will only have to communicate about two UIC permits for Class III and V injection. However, I plan to go back and re-work our Qs and As to address Powertech's recent request (and remove those related to Class I). I believe Darcy also wants us to draft a very brief response.

Doug - I heard about the withdrawal of the Class V permit - how does that change things for us-communications wise?

Subject: RE: status?

Hi Lisa: not beyond our second conversation with him on 11/30. However, it appears we resolved an outstanding question with the permit applicant today related to one of the issues we discussed with Shaun. I have not heard when Shaun will be following up with the Administrator's office.

Hi Doug - hope you're staying warm to day.

Were you and team able to brief Shaun more before his call to the Administrator? Do you know if it's scheduled yet?
